1%. The average of the list was provably 1½ lower.

2 P. M.—Increasing anxiety over the money situation, with the low bank reserves, the steady drain of funds through the subtreasury, and the enormous flotations of new securities, caused renewed liquidation in this morning's market. Call money ruled around 4% as 5 per cent, and the loss in bank cash was further enlarged by vesterday's operaurther enlarged by yesterday's opera-lons. Otherwise there were no new de-

further enlarged by yesterday's operations. Otherwise there were no new developments, either to aggregating or diminishing the pressing considerations
mentioned. The whole list was under
pressure, and yielded substantially during the morning. The selling was particularly persistent, however, in the
Sieel shares, the Pennsylvania group,
and the Union Pacific.

Some support appeared to be extended in Copper, Smelters, and Lead, but
the pressure was too keen in other
directions for operations for the rise
in these stocks to make much headway. The principal sustaining factor
seemed to be the purchases for short
account from time to time as profits
on speculative ventures for the decline
became attractive enough to take.

WALL STREET NEWS ITEMS.

The feature of the London market today was weakness in South Africans, Americans came irregular and about parity. Gilt-edged home issues were

The sub-treasury gained \$3,750,000 from the banks since Friday.

It was rumored on the floor of the exchange that the Treasury Departmen would release \$18,000,000 on Tuesday next.

J. P. Morgan will sail for Europe to-morrow. With perhaps two exceptions his departures have always caused monetary declines. J. J. Hill leaves to-morrow for Aiken, S. C.

There was a fair demand for stocks the loan crowd yesterday. The supply was liberal and fenewals were mad at 4 and 4½ per cent. An increase the short interest is being encouraged.

Wall Street is ready to relebrate any good news coming out of the conference today between the coal operators and the miners. The market is believed to have discounted the worst that can

Reports were in circulation that Standard Oil and Guggenhelm interests are working to bring about the forma-tion of a large combination that will control the copper, silver, and lead in-terests.

The Heinze-Rogers copper deal has fallen flat; other deals are talked of but are not likely until money conditions im-

"Market uncertain. Money situation not satisfactory. Bond issues, how-ever, show confidence in future on part of prominent financiers," is the crumb of comfort one market writer sends.

A continuation of bullish talk on Northern Pacific and Great Northern and intimations that official announce-ments of the Great Northern iron ore deal will be made before the end of the month is being repeated in the room.

Heinze people are reported to have said that the new company formed to take over the Heinze properties will form the nucleus of a much larger con-solidation involving practically the en-tire Butte camp.

Confirmation of the report was obtained yesterday that the firm of Farson, Leach & Co., bankers and dealers in investment securities, has been dissolved and that its members have formed two other firms. A. B. Leach, A. W. Leach, J. G. Campbell, and G. G. Olmstead announced that they have formed a new firm to carry on the business formerly done by Farson, Leach & Co. John Farson and his son, John Farson, jr., have formed a partnership to engage in the bond investment business and to have offices in New York and Chicago.

A half million additional gold has been engaged for shipment to Argen-tina today. This will make the total shipments to Argentina \$2,250,000.

John W. Gates is credited with more than usual builish views on Amalgamated Copper, Anaconda, Union and Southern Pacific, Steel common and American Car and Foundry. The latter he regards as particularly attractive for a "long pull."

The market was under continued pressure from the opening, many important houses selling large lines of long stock, and causing declines in nearly all the active issues.

Cotton Market Firm Despite Ugly Rumor

NEW YORK, Feb. 15.-There was an impression in some quarters that the local cotton market was to be subjected to hard pounding at the opening this morning but the early business failed

to disclose much pressure. First prices were steady at a decline of 2 to 5 points in sympathy with the cables, but the market soon rallied on further supporting orders. The demand interests continue excellent and representatives of spot firms intimated that it was a poor market to go short of. MEXICAN CENTRAL TO MAKE NEW BOND ISSUE

NEW YORK, Feb. 15.-Negotiations are under way for the sale of an issue of Mexican Central bonds, proceeds of which are to be used to refund the existing 4½, 5 and 6 per cent bonds and notes and to provide funds for the acvelopment of the railroad property. No exact figures could be obtained, but is is thought the issue may amount \$20,000,000 or \$30,00,000.

The road's collateral trust mortgage 4½ per cent bonds, amounting to \$10,000,000, are due in February, 1907. A There has been a very noticeable falling off in activity in United States Steel common in the last few days, and yesterday only 8,150 shares were exchanged. The stock lost % yesterday.
